

Questions and Answers on Liquid Cleaner

Question: “What is unique about Liquid Cleaner?”

Answer: Liquid Cleaner will not damage any surfaces that water will not damage. This all-purpose cleaner is very safe.

Question: “What are all of the ways I can use Liquid Cleaner?”

Answer: Liquid Cleaner is an all-purpose cleaner, so it has many applications. Liquid Cleaner can clean any surface that is not harmed by water. For example, you could use Liquid Cleaner to clean cabinets, walls, woodwork, counters, tables, painted surfaces, metal parts, floors and much more. Liquid Cleaner is also a very effective fruit and vegetable wash. Always be sure to read the label for instructions before use.

Question: “What is the fragrance in Liquid Cleaner?”

Answer: Liquid Cleaner has a refreshing orange scent.

Question: “Is Liquid Cleaner sold as a ready-to-use cleaner?”

Answer: No. Although Liquid Cleaner is very safe to use on many surfaces, it is still meant to be diluted before use. Be sure to read the label for instructions before use.

Question: “Is Liquid Cleaner safe to use in pressure washers/power washers?”

Answer: Liquid Cleaner does a great job in pressure/power washers. Use approximately a 30:1 dilution (30 parts water to 1 part Liquid Cleaner). If your equipment automatically gives you a dilution and you can't alter that dilution, it is probably a 7:1 dilution (most common). In that case, mix a 4:1 dilution in a bucket and pull that through, making a 28:1 dilution. Make sure to wear eye protection so none of the blend gets in your eyes, and do not leave standing puddles where animals might drink.

Lastly, do not allow runoff to enter storm drains. This is a violation of the Clean Water Act (which states that nothing can be put down a storm drain but rainwater!). Simply push the runoff with your hose or pressure washer to a grassy area and water it in.

Question: “Is Liquid Cleaner effective in laundry?”

Answer: No, Liquid Cleaner is not effective in laundry.

Question: “Is Liquid Cleaner effective at cleaning cars?”

Answer: Liquid Cleaner is very effective at cleaning cars. Liquid Cleaner can clean all parts of the car (glass, body, wheels) and will not damage paint.
