

UFI FOAM CLEANER

HIGH FOAM ALKALINE DEGREASER CONCENTRATE

This product is a concentrated, high foam built liquid alkali detergent. This product is designed for challenging foam and manual cleaning applications where degreasing is required. This product works best in water and will remove the most difficult fat, oil and grease soils. This product is formulated with high-pressure or normal-pressure water. This product does not contain chlorine. Sodium hypochlorite bleach can be added to the use dilution to create a powerful chlorinated alkali bleaching agent.

DIRECTIONS:

This product is designed for use in foaming equipment or diluting in a container and applying with a brush. For foaming in heavy soil conditions, use 1 to 3 oz of product per gallon of water (120°F to 140°F, 40°C - 60°C) water.

1. Remove gross soils.
2. Protect electrical equipment.
3. Apply diluted foam cleaning solution.
4. Remove cleaning solution and wet away before foam dries.
