

ECOBOOST COLD WATER DETERGENT

LIQUID LAUNDRY DETERGENT FOR COLD WATER WASHES

ECOBOOST COLD WATER DETERGENT (CWD) is a cold water laundry detergent for use in commercial and residential washing machines. CWD combines surfactants and emulsifiers for superior soil removal. CWD contains whiteners to brighten both whites and colors. CWD may be used with ozone laundry systems. CWD optimizes cleaning efficiencies in cold water to reduce energy requirements and lessen the environmental impact. CWD does not contain nonylphenol ethoxylates (NPEs), other phenols or phosphates.

Physical Properties (Typical)

Appearance	Green liquid
Density	8.7 pounds/gallon
Odor	Mild to none
pH	10
Specific gravity	1.04 (Water = 1.00)

Directions

Usage

- Light Soil: Use 1 oz. (29.6 ml) CWD per 50 lbs. (22.7 kg) of fabric
- Medium Soil: Use 2 oz. (59.1 ml) CWD per 50 lbs. (22.7 kg) of fabric
- Heavy Soil: Use 3 oz. (88.7 ml) CWD per 50 lbs. (22.7 kg) of fabric
- Presoak: Use ¼ - ½ oz. (7.4-14.8 ml) CWD per 4 gal. (15.1 L) of water

NOTE: Amounts may vary due to water conditions

Procedure

Presort laundry by colors, fabric type and soil load; add CWD to wash cycle

All significant components in Boost Builder are biodegradable. A biodegradability statement is available upon request.

Ecoboost Cold Water Detergent does not contain any nonylphenol ethoxylates (NPEs) and therefore is better for the environment and faces fewer regulatory restrictions and environmental implications than similar NPE-containing products.

Ecoboost Cold Water Detergent does not contain any phosphates

Available sizes: 5 gal.
