

# EXTRACTION CARPET CLEANER

## DETERGENT FOR USE IN CARPET EXTRACTION EQUIPMENT

Extraction Carpet Cleaner (ECC) is an alkaline-based concentrate specially formulated for use in carpet extraction equipment. ECC works on a variety of carpet types and in both commercial and residential extractors. ECC deep cleans to remove and lift stains, dirt and grime.

### **Physical Properties (Typical)**

Appearance	Brown Liquid
Density	8.35 pounds/gallon
Odor	Fresh
pH (as is)	12
Solubility	Complete at recommended dilutions
Specific Gravity	1.00 (Water = 1.00)

### **Directions**

Vacuum carpet before cleaning and brush with pile brush after cleaning for best results

- General use 3 oz. of cleaner per gallon of water
- Heavy soil: use 4-5 oz. of cleaner per gallon of water

For best results, carpet should be vacuumed before cleaning. After carpet has been cleaned, the pile should be brushed with a pile brush.

Extraction Carpet Cleaner does not contain any nonylphenol ethoxylates (NPEs) and therefore is better for the environment and faces fewer regulatory restrictions and environmental implications than similar NPE-containing products.

Extraction Carpet Cleaner does not contain any phosphates.

Available sizes: 1 gal.
