

METERED INSECT SPRAY

Metered Insecticide Spray is a highly concentrated formula that controls flies, mosquitoes, gnats and small flying moths in a 6,000 cubic-foot area. A single can of this insect spray will last for 28 days when sprayed continuously at 15-minute intervals.

Physical Properties (Typical)

Appearance	Clear Yellow Liquid
Density	6.80 pounds/gallon
Odor	Characteristic
pH	N/A
Specific Gravity	0.814 (Water = 1.00)

Directions for Use

- For use as an individual product
 - Spray Metered Insect Spray at an unwanted insect
- For use with the LED Dispenser
 - Put the Metered Insect Spray into the LED Dispenser
 - Select the interval at which you want the insect killer to be sprayed (5, 15, or 30 minutes)
 - Turn the dispenser on and forget about it for a couple days (time depends on the interval chosen)

This product does not contain any nonylphenol ethoxylates (NPEs). It is better for the environment and is subject to fewer regulatory restrictions than NPE-containing products.

This product does not contain any phosphates.

Available sizes: 7 oz.
