

SECURITY FLOOR SANITIZER

Patented Entryway, External Drain Area, and Floor Sanitizer Crystalline Formula

EPA Reg. No. 5174-1 EPA Est. No.: 5174-WI-1 FOR INDUSTRIAL USE ONLY

This product is the only dry entryway, drain, and floor sanitizer that kills bacteria by oxidation. When activated, this product generates hydrogen peroxide and a small amount of chlorine to accelerate activity.

SECURITY FLOOR SANITIZER does not contain quaternary ammonium chloride (quat) and meets all standards for certification as organic. Not containing quat means this product does not contribute to creation of superbugs as the U.S. National Institute of Health has empirically associated with quats.

SECURITY FLOOR SANITIZER is for use in Federally Inspected Food Processing Facilities, Federally Inspected Meat and Poultry Plants, Dairies, Wineries, Breweries, Beverage Manufacturing Facilities, Dairy Facilities, Swine Farms, Poultry and Turkey Farms, Farm Premises, Hatcheries, Refrigerated Trucks, Kennels, Zoos, Pet Shops, Animal Laboratories, Veterinary Facilities, Animal Care Facilities, Hospitals, Nursing Homes, Hotels, Institutions, Industrial Sites, Schools, Restaurants, Food Handling and Processing Areas, and Institutional kitchens.

SECURITY FLOOR SANITIZER has been evaluated using the Non-Food Contact Surface Sanitizer Test and proven effective against the following organisms:

Listeria monocytogenes (ATCC 15313) Salmonella enterica (ATCC 10708) Escherichia coli (ATCC 11229) Staphylococcus aureus (ATCC 6538) Enterobacter aerogenes (ATCC 13048) Cronobacter sakazakii (ATCC 29544) Streptococcus agalactiae (ATCC 12386)

Security Floor Sanitizer is also a great cleaning agent. The oxygen and surfactants in the product react to foam and clean surfaces.

All significant components in this product are biodegradable. A biodegradability statement is available upon request.

Physical Properties (Typical)

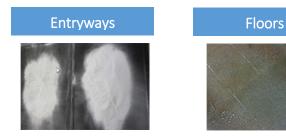

Appearance
Odor
pH (1% in water, wt/wt)

Packed Density
Availability

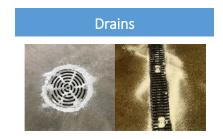

White granules
Mild to none
10
>250°F (>121°C)
7.9 pounds/gal (950g/l)

400 pounds & 100 pounds drums

Directions for Use:

- It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.
- CLEANING INSTRUCTIONS Remove gross soils and particulates from surface by wiping, brushing, or scraping. Add 1 oz (28 g) SECURITY FLOOR SANITIZER per 1 gal (3.8 L) of water (or equivalent use dilution) to make wash solution. Rinse, brush, spray, foam, or wipe wash solution onto surfaces. Let surface stand for 15 seconds to 5 minutes. Rinse all surfaces thoroughly with potable water
- Refer to EPA-registered product label for sanitizing directions on...

Do not mix chemicals unless directed to do so by product label. Reference label and SDS for proper handling and disposal.

This product does not contain any quaternary ammonium chlorides (quats), nonylphenol ethoxylates (NPEs), or phosphates and is better for the environment and faces less regulatory restrictions and environmental implications than quat, NPE, or phosphate-containing products.

This product is available in 400 pounds (181 kg) and 100 pounds (45.4 kg) sizes.
