

## TRIPLE DRY

### READY TO USE CLEANER FOR FOOD CONTACT SURFACES

Triple Dry is a ready-to-use cleaner for food contact surfaces. This product is specially formulated to clean and decontaminate food contact surfaces in dry processing environments. Triple Dry contains alcohol to make it dry quickly after cleaning. Follow the cleaning application with a sanitizing step as required local, state, and federal regulations.

#### **Physical Properties (Typical)**

Appearance	Colorless Liquid
Density	8.18 pounds/gallon
Odor	Alcohol
pH (as is)	4
Specific Gravity	0.98 (Water = 1.00)

#### **Directions for Use**

1. Remove bulk soil from surface
2. Spray surface with undiluted Triple Dry
3. Thoroughly wipe surface
4. Sanitize per local, state, and federal regulations

This product does not contain any nonylphenol ethoxylates (NPEs). It is better for the environment and is subject to fewer regulatory restrictions than similar NPE-containing products.

This product does not contain any phosphates.

Available sizes: 1 qt.
