

## DeVere CAUSTIC HT POWDER

### LOW-FOAM, CONCENTRATED, ALKALINE POWDER CLEANER

Caustic HT Powder excels in deep fat fryer cleaning as well as circulation and back-out operations on high-temperature processing equipment in the dairy and food processing industries. Caustic HT Powder does not contain chlorine and is designed for challenging applications where high alkalinity is needed or desirable. This product will clean tough grease and burn-on only while handling any water hardness level and leaves saturated with normal water rinses.

**DIRECTIONS:**  
General: This product is designed for use at 1-3% solution strength depending on the equipment and soil.  
Bowl and Conditions: In a HTSE, Evaporator, Oven or Fryer, cleaning will be performed at 1-3% solution at 145-187°F (63-85°C) for 30-60 minutes.  
Deep Fat Fryer Cleaning: Shut fryer down with hot water. Fill fryer to within 3-4 in (7.6-10.2 cm) with cool water. Add 6 oz (170 mL) product per 4 gal (15.1 L) of water. Boil slowly for 20 minutes. Soak inside of boiler with long handled brush if necessary. Drain Fryer, rinse with clean water, and allow to air dry.  
NET CONTENTS: 400 POUNDS (181 kg) LOT: 11700101

POWDER CAUSTICA

## Questions and Answers on Caustic HT Powder

**Question:** “What is unique about Caustic HT Powder?”

**Answer:** Caustic HT (high temperature) Powder is able to clean evaporators, ovens or fryers at temperatures up to 185°F.

**Question:** “What are all of the uses for Caustic HT Powder?”

**Answer:** Caustic HT Powder can be used to clean evaporators, ovens and fryers. Caustic HT Powder excels at deep fat fryer cleaning. Just add 6 ounces of Caustic HT Powder per 4 gallons of water and slowly boil for 20 minutes. Scrub the inside of the boiler if necessary. Drain and rinse the fryer. Always read the label before use.

**Question:** “Is this product free-rinsing?”

**Answer:** Yes, Caustic HT Powder is free-rinsing with normal water rinses.

**Question:** “What is the fragrance in Caustic HT Powder?”

**Answer:** Caustic HT Powder has a mild to no odor.

**Question:** “Aren’t these products a lot more concentrated therefore more dangerous to store or use than my current products?”

**Answer:** Caustic HT Powder is an industrial chemical product and hazardous when handled incorrectly just like chlorine bleach and alkaline detergents. The key to safety is proper PPE training.
