

ACID FOAM AND ACID FOAM NP

Premium, Acidic, High-Foam, Built Cleaner

These products are designed for foaming and manual cleaning applications where a high level of foam is desirable or acceptable. These products will remove mineral contamination and shine stainless steel and other acid-resistant surfaces.

Acid Foam and Acid Foam NP contains a high-level of acidic and chelants to quickly pull minerals off any acid-resistant surface.

Physical Properties (Typical)

Acid Foam Appearance	Deep purple liquid
Acid Foam NP Appearance	Green liquid
Odor	Mild to none
Acid Foam Specific gravity	1.2 (10 pounds/gallon)
Acid Foam NP Specific gravity	1.04 (8.7 pounds/gallon)
pH (1% solution)	< 2

Acid Foam and Acid Foam NP are designed for use in food production and other manual cleaning applications where soils consist mostly of minerals.

Directions for Use

Acid Foam/Acid Foam NP is designed for use in foaming equipment, including wall mounted and portable units. For foaming in all conditions, use 2 oz. of product per gallon (1.6% by volume) of warm or hot water.

Acid Foam and Acid Foam NP do not contain any nonylphenol ethoxylates (NPEs). They are better for the environment and is subject to fewer regulatory restrictions than NPE-containing products.

Acid Foam NP does not contain any phosphates and is non-hazardous as characterized by the U.S. Department of Transportation. Acid Foam contains phosphoric acid.
