

BOOST DETERGENT PLUS BUILDER

CONCENTRATED LAUNDRY DETERGENT AND BUILDER IN ONE PRODUCT

BOOST DETERGENT PLUS BUILDER (BDB) combines detergent and builder in one product for use in commercial laundry washing machines. BDB contains surfactants, emulsifiers, builders, sequestration agents and an anti-deposition ingredient for superior soil removal. BDB lifts greasy stains and neutralizes soils. BDB's whitener brightens whites and colors.

Physical Properties (Typical)

Appearance	Red liquid
Density	9.4 pounds/gallon
Odor	Fresh scent
pH	> 12
Solubility in water	Complete at recommended dilutions
Specific Gravity	1.13 (Water = 1.00)

Directions

Usage

- Light Soil: Use 2 oz. (59.1 ml) per 50 lbs. (22.7 kg) of fabric
- Medium Soil: Use 3 oz. (88.7 ml) per 50 lbs. (22.7 kg) of fabric
- Heavy Soil: Use 4 oz. (118 ml) per 50 lbs. (22.7 kg) of fabric
- Presoak: Use ¼ - ½ oz. (7.4-14.8 ml) BDB per 4 gal. (15.1 L) of warm water

NOTE: Amounts may vary due to water conditions

Procedure

1. Presort laundry by colors, fabric type and soil load
2. Add BDB to wash cycle

All significant components in Boost Detergent Plus Builder are biodegradable. A biodegradability statement is available upon request.

Boost Detergent Plus Builder does not contain any nonylphenol ethoxylates (NPEs). It is better for the environment and is subject to fewer regulatory restrictions than similar NPE-containing products.

Boost Detergent Plus Builder does not contain any phosphates.

Available sizes: 5 gal.
