

BOOST PRESPRAY FOR LAUNDRY

LAUNDRY PRESPRAY AND SOAK STAIN REMOVER WITH ENZYMES

This product is a concentrated, mildly alkaline laundry pre-spotter and soak that penetrates fabric to remove even aged stains from protein, fats and oils. Boost Prespray for Laundry is especially effective against makeup, food, grass, blood and tannin stains.

Physical Properties (Typical)

Appearance	Colorless Liquid
Density	8.85 pounds/gallon
Odor	Mild to none
pH (as is)	7
Specific Gravity	1.06 (Water = 1.00)

Directions for Use

SHAKE WELL BEFORE USE

Spray applications:

1. Spray product as-is on the area to be cleaned.
2. Let soiled surface soak for 1 to 5 minutes.
3. Wash with similar types of fabric.

Soaking applications:

1. Use 8 ounces of this product per gallon of water.
2. Let soiled surface soak for 1 to 5 minutes.
3. Wash with similar types of fabric.

This product does not contain any nonylphenol ethoxylates (NPEs). It is better for the environment and is subject to fewer regulatory restrictions than similar NPE-containing products.

This product does not contain any phosphates.

Available sizes: 1 qt.
