## SPRAY DISINFECTANT

Spray Disinfectant is an aerosol disinfectant spray that is effective in killing a variety of harmful bacteria, viruses, etc.

### **Physical Properties (Typical)**

|                  |                     |
|------------------|---------------------|
| Appearance       | Hazy, yellow liquid |
| Density          | 7.68 pounds/gallon  |
| Odor             | Perfumed            |
| pH               | 10 – 11             |
| Specific Gravity | 0.92 (Water = 1.00) |

### **Directions for Use**

Spray some Spray Disinfectant on any surface that needs to be sanitized and wipe away with a clean, dry cloth.

Spray Disinfectant does not contain any nonylphenol ethoxylates (NPEs). It is better for the environment and is subject to fewer regulatory restrictions than NPE-containing products.

This product does not contain any phosphates.

Available sizes: 16.5 oz.
