

SOAK FOR SILVERWARE

POWERED UTENCIL & DISH PRESOAK

Soak for Silverware is a concentrated, powdered presoak for flatware prior to washing in a commercial dishwasher. This product softens soil for easy removal, prevents water spotting and removes tarnish. Rinse flatware thoroughly before placing in dishwasher. Our product works in soft or hard water.

Physical Properties (Typical)

Appearance	Blue powder
Density	8.35 pounds/gallon
Odor	Mild to none
pH	8 (10% Solution)
Specific Gravity	1.00 (Water = 1.00)

Directions for Use

Presoak for Flatware

Dissolve 1/4 cup in warm water (120°F/49° C) in 2 gal. dishpan

- Add flatware and soak until food soils soften
- Rinse thoroughly and place in dishwasher

NOTE: Change solution before each meal; more often for heavy food deposits

Tarnish Removal from Silver-plated or Sterling Silverware

Cover bottom of 2 gal. dishpan with aluminum foil

- Dissolve 1/4 cup in HOT water in dishpan
- Submerge silverware making sure each piece is in contact with aluminum foil
- Soak for at least 5 minutes
- Remove
- Rinse thoroughly and place in dishwasher

Soak for Silverware does not contain any nonylphenol ethoxylates (NPEs). It is better for the environment and is subject to fewer regulatory restrictions than NPE-containing products.

Available sizes: 10 lbs., 10 lbs. capsules
